

24....An AWESOME Math Game!

How to play "24"

Make 24 using the numbers on the card. Use ALL FOUR numbers, but use each ONLY ONCE. You may add, subtract, multiply, divide, or any combination of those operations.

Example: Card Shows 8, 4, 8, 2

A sample solution would be: $2 \times 4 + 8 + 8 = 24$

Be sure to write out your solution equation like the one above!

Good Luck!

Today's 24 Cards...

A. 9,5,7,1 (••)

B. 4,3,2,8 (••)

C. (Bonus!) 5,9,8,8 (•••)
